

SNAP: PAYMENT ERROR RATES FY 2025

In alignment with H.R. 1, states with payment error rates (PER) at or above the 6% threshold will be responsible for covering 5%, 10%, or 15% of their states' benefits – the higher their PER, the higher the percentage – beginning as soon as October 1, 2027. The FY 2025 PER is the first year that could be used to calculate those percentages.
